# AMINA ISMAIL'S COMMUNITY ACTION DAY

## TACKLING FLY-TIPPING ON VERULAM CLOSE AND KIMBERLEY CLOSE

**Amina has been out on a community action day and litter pick.**

She spoke with residents and they shared that fly tipping and litter is a regular problem in the area.

The team was able to collect lots of rubbish and report fly-tipping to the council.

Amina is also working with the City Safe team to explore using mobile cameras to deter fly-tipping and will continue monitoring the area with council officers to help keep it clean.

Amina Ismail (centre) is helping to clean up Princes Park

**Amina said: "It's been great getting out into the community and taking action.** It's clear how much people in Princes Park care about our area, and how much we can achieve together."

## YOUR LOCAL COMMUNITY CAMPAIGNER, AMINA ISMAIL

Hello, I'm **Amina Ismail,** your local Green Party community campaigner. **Princes Park is my home.** I grew up here, and I've seen our community change over the years. That's why **it matters** to me, and why I'm passionate about campaigning for a better future for our area.

I've spent years supporting people locally through employment, education and community action, standing alongside residents and working to tackle the issues that matter to them.

**I want to listen to residents, understand what matters most to you, and work alongside you to build a greener, fairer and stronger community.**

**I plan to start by listening. I'm looking forward to getting out across the ward, meeting residents, hearing your ideas and concerns, and taking action together.**

Here are some of the local issues I've been working on recently, I'd love to hear from you too.

## KINGSLEY ROAD CYCLE LANES AND ROAD SAFETY

Amina has been out on Kingsley Road listening to residents and seeing first-hand the problems caused by the cycle lane bollards.

Although described as temporary, the bollards are causing issues for cyclists, pedestrians and drivers, with displaced bollards regularly ending up across the road.

Amina has reported the problems and moved displaced bollards, but residents shouldn't have to keep dealing with measures that aren't working.

Amina said: "**We need to listen** to the people who use this road every day and find a solution that works for the whole community, while keeping everyone safe."
